

# MobileOffice Plus

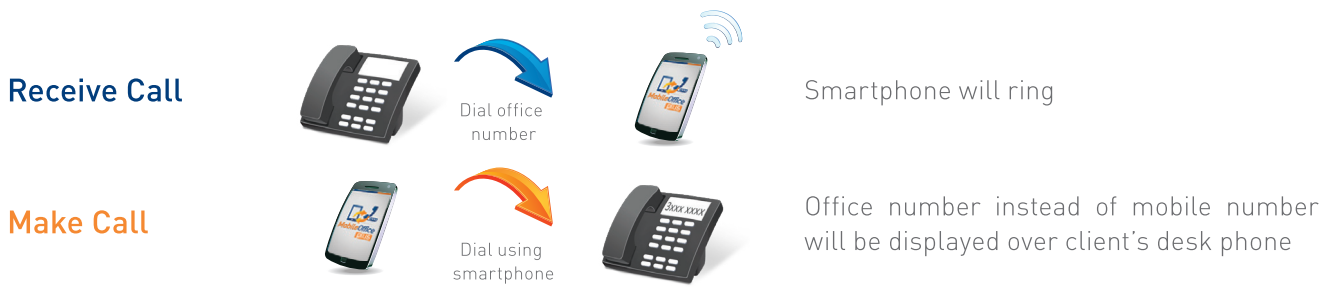

## Business identity with high mobility

MobileOffice Plus is a simple smartphone mobile App solution that takes your office number anywhere you go. With its VoIP feature, this MobileOffice Plus App enables you to receive and make calls displaying your business number over not only your existing cellular service but also the Internet such as Wi-Fi or cellular data network\*. Enjoy the advantages of a business line on the go with MobileOffice Plus and its control features with just a few clicks.

## Features & Advantages

### Office On The Go

Business identity is the face of every enterprise. MobileOffice Plus is a powerful mobile App that allows calls to be received and made on a unified business number via your smartphone, offering superior convenience to professionals who travel and work outside the office.

### Cost-saving

When traveling overseas, calls can be made anywhere via Wi-Fi or cellular data network\* with VoIP feature to replace cellular roaming calls.

\* Internet Call over cellular data network may incur additional charges or data roaming fees from your mobile operator.

^ When calling abroad from Hong Kong or overseas, IDD calling cost will be incurred.

## Flexibility

With the enhanced usability of MobileOffice Plus, you can flexibly switch between two calling modes, Mobile Call Mode and Internet Call Mode with just a simple click. For optimal usage: use Mobile Call Mode in Hong Kong and Internet Call Mode when traveling overseas.

	Mobile Call Mode	Internet Call Mode
VoIP Feature	X	✓
Office number as Caller ID Display	✓	✓
Mobile network calling minutes counted?	✓	X
Data connection required for calls?	✓ • Only for setting up outbound calls	✓ • Required for entire phone conversation <sup>^</sup>
When to use?	• In Hong Kong	• When traveling overseas • When under a stable network connection

<sup>^</sup>Internet Call over cellular data network may incur additional charges or data roaming fees from your mobile operator.

## Business Line Features

Complete telephone line features that you need for business: Call Forwarding, Call Waiting, Do Not Disturb, Voicemail, Caller Number Display and 3-way conference

## Cost Effective

Eliminate the investment on office phones and software licenses so more capital is channeled towards business growth

## No On-site Installation

Simply download and install the MobileOffice Plus App from Google Play or App Store onto your smartphone

Eliminate lead times for installation and future relocation, ensuring that you are always connected to do business

## Simple Management

Flexibly change call and mobility settings; easily access call logs and voicemail via MobileOffice Plus App any time; update voice mail log in details through User Web Portal
