

Unleashing the **POWER OF BUSINESS**

HKBN Enterprise Solutions (HKBNES) is a leading information and communications technology (ICT) services provider in Hong Kong and is part of HKBN Ltd. (SEHK Stock Code: 1310; "HKBN" or "The Group"). HKBNES offers a comprehensive range of premier ICT solutions to the enterprise market, including broadband, data connectivity, managed Wi-Fi, mobile, voice communications, data centres, business continuity services, information security, system integration and various cloud solutions. HKBNES serves over 100,000 customers across different industries in the business and public sectors. The Group's extensive fibre networks cover 2.3 million residential homes and over 7,000 commercial buildings and facilities across Hong Kong. HKBN embraces "Make our Hong Kong a Better Place to Live" as its core purpose, and it takes great pride in developing its Talents into a competitive advantage. The Group is managed by Co-Owners (supervisory and management level Talents in the Group) who have invested their own savings to buy shares of HKBN Ltd.

*Hong Kong boasted the highest peak connection speed in the world at 57.5 megabits per second (Mbps), according to the State of the Internet Report, 4th quarter, 2012, Akamai Technologies, one of the world's largest Content Delivery Networks; while Hong Kong Broadband Network's highest average peak connection speed recorded 78.3Mbps according to Akamai's Network Partner Portal in 4th quarter, 2012.

Solutions for Your Enterprise

Broadband Network

- **Business Broadband**
Diversified commercial fibre broadband services up to 1000Mbps
- **Dedicated Internet Access (DIA)**
Manageable bandwidth choices for local and international connectivity
- **Premium Dedicated Internet Access (PDIA)**
Dedicated bandwidth to specified regions
- **IP Transit**
Efficient access to transmit network traffic to global Internet

Voice Communication

- **Infinite Voice**
Hosted voice solution with a full set of cloud-based unified communications features
- **Cloud Voice**
Unified communications services for enhanced business collaboration
- **Business Line**
A wide range of professional grade telephony services
- **Cloud Video**
Flexible and easy-to-use video conferencing service
- **Enterprise SIP Trunk**
A direct SIP-to-SIP connection offering a rich array of features
- **MobileOffice Plus**
A mobile App with VoIP functions that allows you to take your office number on the go
- **Cloud Recording**
Call recording service with advanced cloud technology
- **i2Fax**
Easy-to-use online fax service
- **iVoiceMail**
Management of voice mail via both phone and email
- **IDD 0030 & IDD007**
A premium IDD service offering reliable international calls

Data Connectivity

- **SDWAN**
Centralised and streamlined management of diversified WAN connectivity services
- **MetroNet**
High bandwidth connectivity for any-to-any solutions
- **Metro IP-VPN**
Scalable networking solution in Hong Kong with local access
- **Dense Wavelength Division Multiplexing (DWDM)**
Harnessing DWDM optic switching technology to deliver dedicated bandwidth services
- **Securities and Derivatives Network (SDNet/2)**
Full fibre network enabling high-speed network connection to the critical trading platforms from HKEX
- **Point-to-Point Ethernet**
Point-to-point networking solution that helps enterprises to build high-performing network
- **Dark Fibre**
High capacity metro networks at very low latency
- **International IP-VPN**
Scalable networking solution to international locations with local access
- **IPLC**
End-to-end dedicated telecommunications transmission designed for exclusive use
- **IEPL**
Point-to-point international high-bandwidth data connectivity

Cloud Solutions

- **Cloud Monitoring**
Cloud-based unified network and cloud performance monitoring solution
- **Cloud Protect**
Cloud-based protection against cyber attacks
- **Infinite Wi-Fi**
Scalable and secure end-to-end cloud-based Wi-Fi solution
- **Cloud XConnect - AWS Direct Connect**
Private & low latency network connectivity between on-premise infrastructure and Amazon Web Services
- **Business Email**
Multiple email hosting services on a single interface
- **ICG Multi-Cloud Solutions**
Accelerate cloud transformation with all-round multi-cloud solutions and services

Data Facility

- **Data Centre**

Tier 3+ data centre with ultra-low latency dark fibre connectivity

System Integration

- **Wi-Fi**

Wi-Fi solution from network design, architecture to implementation

- **Unified Communication System**

High performance unified communications solutions

- **Cabling & Networking**

Flexible network infrastructure tailored for all kinds of business needs

- **Managed IT**

One-stop customized solutions to cater for different needs across industries

- **IT Advisor**

One-stop professional IT-related onsite support service

- **HR Pro[®]**

One-stop human resources management solution

ePayment Service

- **Alipay Payment Service**

A secure and flexible payment settlement platform

- **Octopus Payment Service**

One-stop Octopus payment service that facilitates business operations

Mobile Services

- **HKBN Mobile Services**

Unparalleled mobility anytime, anywhere

- **Global Pocket Wi-Fi**

Boost up the mobility of your business

Information Security

- **Asure Security**

Integrated information security managed services

- **PC Secure**

Endpoint security solution that strengthens the last line of defense against cyber attacks

- **Vulnerability Management**

Comprehensive vulnerability assessment

Conferencing

- **Audio Conferencing**

Simple and easy-to-use voice conferencing

- **Video Conferencing**

Global video conferencing service managed by professionals

- **Web Conferencing**

Multimedia conferencing service that facilitates ideas and data sharing

World-class Infrastructure backed by Tier-one Partners

HKBN aligns with other industry leaders to build powerful and customised solutions to help you achieve business goal.

IP Networks

NOKIA

A global leader specializing in IP Networking and Ultra-Broadband Access

The leading global provider of IP networks communications

IP Voice

Leading provider of Unified Communications software over Internet Protocol networks

A global leader in smart networking solutions

Mobile networks

SmarTone

Leading mobile network operators in Hong Kong

OTT contents

Leading OTT content provider in Hong Kong

Global data networks

A global data service provider with CloudSIM technology
