J7. DataNet – Broadband IP Connect Service

Effective date: 27/8/01, Revision date: 16/1/04, 12/11/12

This Service is a data service to support IP (Internet Protocol) based applications and services, and is provided by forming a broadband network using IP routing technology over a shared network infrastructure.

- (a) Host Network Connection – provides broadband symmetric connections to service providers or company headquarters which require higher upstream bandwidth up to 155Mbps to distant end.

Service / Activity	Charge (HK\$)
Installation	\$32,000
External Relocation	\$32,000
Internal Relocation	\$16,000
Reconfiguration	\$200
Monthly Rental	\$11,500
PVC (permanent virtual circuit) Bandwidth Monthly Rental	\$850 (each 5Mbps)

- (b) End-user Connection – provides connections to customers or branch offices up to 4Mbps for upstream and downstream transmissions.

Service / Activity	Charge (HK\$)
Installation	\$2,250
External Relocation	\$2,250
Internal Relocation	\$450
Reconfiguration	\$200
Monthly Rental	\$2,650

Notes:

- Host Network Connection provides customers with ATM OC-3 Single Mode fibre interface.
- End-user Connection provides end-users with 10BaseT interface.
- The minimum quantity requirement for the Service is 16 end-user connections per building within the first 12 months of the date of installation of the first end-user connection in that building, whether or not the Customer orders or uses all the minimum quantity.

- (c) End-user Connection 2M – provides connections to Customers or their branch offices up to 2Mbps for upstream and downstream transmissions.

Service / Activity	Charges (HK\$)
Installation	\$2,250
External Relocation	\$2,250
Internal Relocation	\$450
Reconfiguration	\$200
Monthly Rental	\$1000

Notes:

- End-user Connection provides end-users with 10BaseT interface.

The provision of the Service is subject to WTT's General Terms and Conditions of Service as revised and published from time to time.

In addition to WTT's General Terms and Conditions of Service, the following special conditions will apply to the Service:

- The Service is subject to the Customer's equipment meeting the relevant specifications for interoperability with WTT's Network. Any equipment which the Customer intends to connect to WTT's Network for the purpose of the Service must be approved by WTT prior to any connection, and must be in compliance with the technical standards specified by WTT. At the time of application for service the Customer must provide all details regarding the equipment which it intends to connect to WTT's Network. WTT may reject the application if the required information is not provided or WTT opines that the said equipment does not comply with WTT's technical standards. WTT may at any time, without being liable to the Customer, disconnect the Customer's equipment connected to WTT's Network if:
 - The configurations or technical specifications of such equipment so connected differ from the details provided by the Customer in its application for the Service;
 - there is any malfunction of the equipment; or
 - the provision of the Service to the Customer is terminated or discontinued for any reason whatsoever.
- The provision of the Service is subject to site feasibility and available resources of WTT including network coverage to the installation address.

3. Minimum subscription period for the Service is twenty-four (24) months unless otherwise specified in the Order Confirmation. Customer shall on demand pay for the monthly charges for the remaining contract period in the event of termination before expiration of the minimum subscription period.
4. Unless otherwise specified, both monthly charges and installation charges are per circuit end. Additional costs for civil or fibre work will be quoted on a case-by-case basis.
5. Unless otherwise specified in the Order Confirmation,
 - “M” or “Mbps” stand for megabits per second;
 - “G” or “Gbps” stand for gigabits per second;
 - “MB” stands for megabytes; and
 - “GB” stands for gigabytes.

DataNet-Broadband IP Connect Service – End-user Connection 6M, 8M & 10M

Effective date: 2/01/04

WTT provides the DataNet-Broadband IP Connect Service for connection for upstream and downstream transmission up to the following bandwidths at the following charges:

Service/Activity	10M	8M	6M
Installation (per end)*	HK\$3,150	HK\$3,150	HK\$3,150
External Relocation (per end)*	HK\$3,150	HK\$3,150	HK\$3,150
Internal Relocation (per end)*	HK\$450	HK\$450	HK\$450
Reconfiguration	HK\$200	HK\$200	HK\$200
Monthly Rental (per end)	HK\$5,780	HK\$5,010	HK\$4,240

* If more than 1 site visit is required, the relevant service will be charged on a per end per visit basis.

End-users Connection provides end-users with 10BaseT interface. DataNet-Broadband IP Connect Service is subject to availability of WTT’s network coverage and is provided by WTT subject to WTT’s General Terms and Conditions of Services as published from time to time. All other terms and conditions of DataNet-Broadband IP Connect Service remain unchanged.
