

Premium Dedicated Internet Access

Reliable, high-speed Internet connectivity

Along with the digital era comes new imperatives for business - high upload and download speeds, over a reliable and secured connection, are now a basic requirement in companies of all sizes. If basic broadband no longer satisfies your demands, HKBN Premium Dedicated Internet Access (PDIA) offers the stable, high-speed connectivity you need for all your critical business functions.

Full-time dedicated Internet access overseas

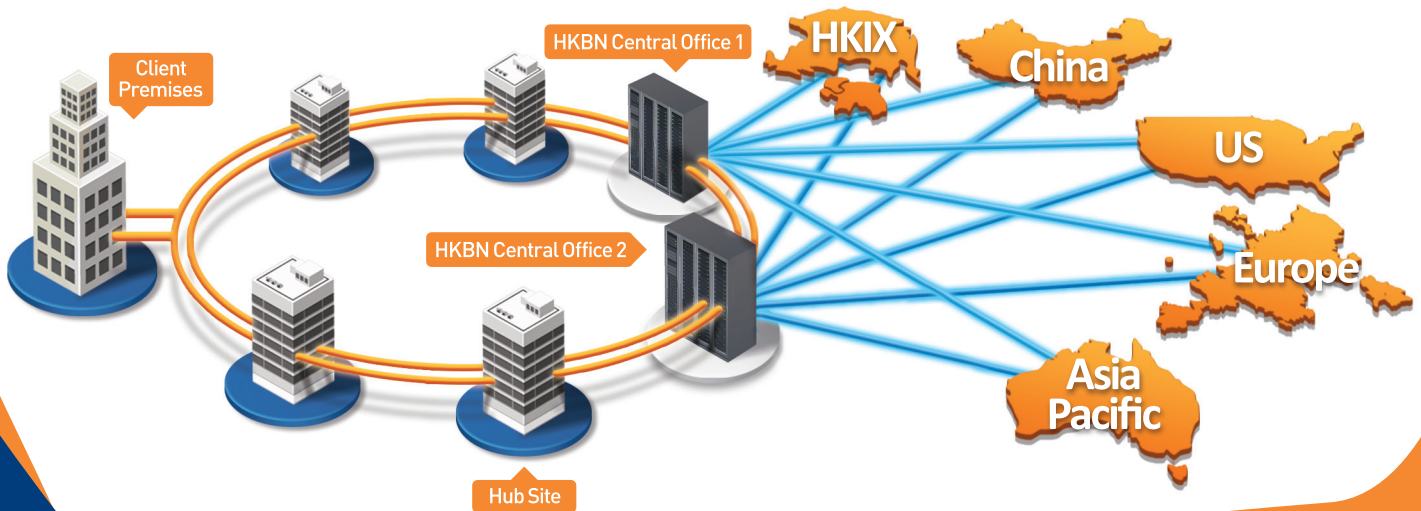

HKBN PDIA provides direct connections with full-time dedicated bandwidth from Hong Kong to multiple Tier-1 providers, reaching China, Asia Pacific, Europe and the US by the shortest path available. This cost effective solution is both customisable and scalable to meet any need or requirement.

Dual Path Fibre Connection

Dual fibre paths connect client premises with Fibre-to-the-Office (FTTO) technology

Diversified hub sites and paths are connected by dual path fibre

Direct and reliable bandwidth supported by multiple regional Tier-1 carriers

Robust Internet Access with High-performance Services

Premium Dedicated Internet Access (PDIA)

- High Availability (HA) solution
- Direct and shortest path to destinations
- High stability with no congestion
- Guaranteed bandwidth per region
- Web-based MRTG report per region

Dedicated Internet Access (DIA)

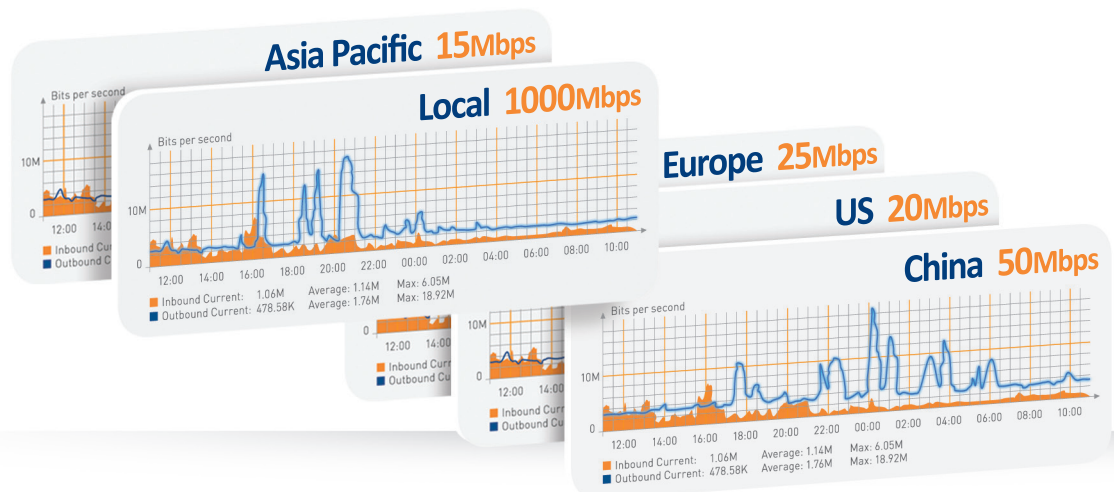

- Direct Fibre provisioning
- MRTG report for local and international traffic

Business Broadband

- High-speed Internet connection
- Diversified upstream carriers

Customised Bandwidth for Specific Regions

Web-based Multi Router Traffic Grapher (MRTG) report

Features and Advantages

Dedicated Internet Connection

Reserved one-to-one overseas bandwidth provision ratio guarantees high-speed and stable Internet connections

Dual Path Fibre Connection

Achieve full redundancy to avoid any single point of failure and ensure service continuity

Low Concentration Ratio

Significantly reduce or eliminate instances of data loss, latency and jitter

Customised Solutions

Diverse range of flexible local and international bandwidths available from 100Mbps to multiple 10Gbps in specific regions

Bandwidth Adjustment

Fast upgrade to match ever-changing business needs

Premium Class

Connections are provided by multiple Tier-1 providers

Web-based MRTG Report

Regional-based reporting helps manage utilisation to ensure a smooth Internet connection and enhance cost control

Address Your Business Needs For

- **Enhanced network performance** across business locations
- **High-speed Internet access** at a competitive price
- **A low concentration ratio** for faster online services provision
- **Total resilience** throughout your Internet connection
- **Comprehensive round-the-clock support** with world class client care services & proactive network monitoring
- **Mission-critical business application support** (e.g. ERP, Video Conferencing, SAP)
